#### SUPPLEMENTARY INFORMATION:

##### I. Background

In the *Federal Register* of November 27, 2015 (80 FR 74225), we issued a final rule entitled "Foreign Supplier Verification Programs for Importers of Food for Humans and Animals" (the final rule) that requires importers to perform certain risk-based activities to verify that food imported into the United States has been produced in a manner that meets applicable U.S. safety standards. The final rule, which is codified at 21 CFR part 1, subpart L, became effective January 26, 2016, but has compliance dates starting May 30, 2017.

We examined the economic implications of the final rule as required by the Regulatory Flexibility Act (5 U.S.C. 601-612) and determined that the final rule will have a significant economic impact on a substantial number of small entities. In compliance with section 212 of the Small Business Regulatory Enforcement Fairness Act (Pub. L. 104-121, as amended by Pub. L. 110-28), we are making available the SECG to reduce the burden of determining how to

comply by further explaining and clarifying the actions that a small entity must take to comply with the rule.

We are issuing the SECG consistent with our good guidance practices regulation (21 CFR 10.115(c)(2)). The SECG represents the current thinking of FDA on this topic. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations. This guidance is not subject to Executive Order 12866.

The collections of information in 21 CFR part 1, subpart L, have been approved under OMB control number 0910-0752.
